An immense aggregation of shows, to be operated for a season of six months in 1903, a year before the opening of the World's Fair, is the great amusement enterpristhat will be launched by the Bay State Amusement Company on the extensive tracts of the Park View Realty Company. The plans are so huge that among intending concessionaires of the big private corporation the proposed exhibition is spoker of as the "Park View Realty Company's

It is reported at the Administration building of the Exposition that the services of a manager for the "1903" shows has been engaged in the person of a well-known amusement promoter from Chicago.

The Bay State Amusement Company has leases on the Catlin tract and other portions of the Park View property, which enables this corporation to control the space upon which it is proposed to locate the combined shows.

An agent of the realty company stated last night that it was not likely that the plans of the big merged show would be announced until after the result of the negotiations in New York between President Francis of the Exposition Company and President Ramsey of the Wabash Rallway

over the Catlin tract. Intimation was given that a successful outcome of those negotiations would possibly preclude the operation of the outside shows during the Exposition. The plan, as suggested, contemplates the running of these shows prior to the opening of the World's Fair, as a purely private enterprise for the purpose of entertaining thousands of visitors to the incompleted Fair.

which has stood for hundreds of years near Banbury, England. A recent press telegram from New York conveys the information that this historic mansion will soon be transplanted from its time-honored site across the ocean to St. Louis. It is proposed, according to the telegram, to purchase the Washington home

and place it upon the Exposition grounds. The managers of the World's Fair are accredited with this bit of Yankee enterprise, but local information seems to point to one of the amusement firms that have been negotiating with the Bay State Com-

Swam From Troy to Lagoon Island terday. to Win Father's Bet.

REPUBLIC SPECIAL

New York, Aug. 22.—Miss Eleanor Weber, a daughter of John P. Weber, the owner of Lagoon Island, accomplished a record-breaking feat when she swam from Troy to Lagoon Island, a distance of five miles, in one hour and twenty-nine minutes. This distance has never before been covered by a swimmer, and it is possible that the young woman's time will stand as the record for many a day to come unless she herself should try to lower it.

Mr. Weber and a prominent Albanian were talking about swimming, and Mr. Weber offered to bet that his daughter could swim from Troy to his island. The bet was accepted, and Miss Weber plunged into the water at Troy at 2:15 o'clock. She walked ashore in the center of Lagoon Island one hour and twenty-nine minutes later.

Island one hour and twenty-nine minutes later.

She was greeted with cheers by a large crowd of pleasure-seekers, as she reached the land.

Miss Weber arrived at Troy on the 2 o'clock boat from the island, and, attired in a blue bathing suit, was conveyed to the middle of the stream in a naphtha launch, in which were her father and several friends. She plunged over the side of the boat, and when she again came to the surface soon strained a sweeping stroke, which she maintained until opposite the iron terminal warehouse, when, under direction of her father, rather than from ne-

CRIME OF SIX YEARS AGO, PROTESTS IN HONESTY'S NAME.

Deed Is Said to Have Turned State's Evidence.

REPUBLIC SPECIAL.

Nashville, Tenn., Aug. 22.-Four of the most prominent citizens of Sumner County and one of this city have been placed under arrest for alleged complicity in the assassination of Doctor A. H. Williams. who was shot down almost at his own threshold on the night of April 10, 1896. It is said that nine men, all together, are charged with being implicated. Those under arrest are: Edgar Mann, R. M. Pierce and Rufus Bell, all of Hendersonville; Falden Dodd of Nashville and Harry

Wherry, Postmaster of Hendersonville. These men gave bond at Gallatin en Mon in sums ranging from \$10,000 to \$25,000. but the affair was kept a profound secret as the Grand Jury of Sumner County returned indictments against nine alleged conspirators, and the officers of the law are said to be hot after the others, some of whom are claimed to be the men who did the killing.

No crime ever occurred in Middle Tennessee more startling or shocking than that which sent Doctor Williams into eternity. On the night of the tragedy he was led out of his home by a ruse, and just as he was leaving his own gate on horseback he was fired upon and feil riddled with buckshot.

The crime set the community into disorder and at a mass meeting the next day
a reward of \$1,500 was offered for the arrest of the assassina. This sum was
promptly increased by the State.

The searchlight system of signaling is maintained throughout the fleet and the wheeling beams are seen along the whole coast. When the sun came up this morning the atmosphers was as clear as it could be. At that hour extended observations were made from all signal and lookout stations and each reported that all was well and that there was no sign of the enemy.

During the morning a fog appeared, which for awhile screened everything from view, but at midday it lifted. In the afternoon it became thick again, but in a few hours cleared. The stationkeepers here have been advised that the lookout line has been extended to Nantucket, where the wireless telegraph station is located. Cobbett had a poor memory. In a fever of anxiety he tried to reconstruct his plans from stray notes. It was impossible, and he called to the Russian Government for more time. This was refused, and Russia repudiated the contract, on the ground of delay, as the agreement allowed. The loss drove Cobbett & Co. into bankruptey, and the great Kaura bridge in Russia is American built.

MASON DECLARES WAR

Four Men Arrested in Tennessee in Issues an Open Letter Telling Why He Carnot Support the Present Administration.

One of Those Who Committed the If Present Ring Remains in Control the Senator Sees Destruction of the Republican Party in Illinois.

> REPUBLIC SPECIAL Chicago, Ill., Aug. 22.-Senator William E. Mason has declared war upon Governor Yates and the Yates State Committee. Today he issued an open letter to the Republican voters of the State giving his reasons for not supporting the Republican State ticket. The State ticket is the product of the combination of Yates, Lorimer and Congressman Hopkins, and Senator Mason does not propose to stand for it.

"If loyalty to Yates and an indorsemen of his practices and methods in managing the State Institutions," said Senator Mason this morning, "are to constitute a test for Republicanism this year, then I am no Republican."

The open letter of Secator Mason will cause a commetion among thousands of Republicans throughout the State. In spe-cific terms Mr. Mason scores the present Vates region. Yates regime and accuses it of being everything that is bad. To indorse it by voting thing that is had. To indorse it by voting the State ticket, he says, would be to dis-grace the Republican parry. To help the Republican State ticket, he intimates, would be to help rob the insane, the blind and the deaf and the dumb unfortunates who are the helpless wards of the State. Senator Mason says he cannot stand such a test. He wants the grand o'd party to return to the paths of virtue and honest methods, and, measured by such a test, he asserts he is still a Republi an.

Mason's Open Letter.

The open letter of Senator Mason to the Republican voters of the State, is as follows: lows:

"In so much as the Republican State Central Committee has made an official announcement that I will not be invited to speak in Elinois during this campaign, it is only fair and proper that I should make a statement to you as to why this is done. Notwithstanding the fact that I contributed Notwithstanding the fact that I contributed more speeches, more money in the last campaign for President McKinley than any member of the committee, the attempt to read me out of my party is done to make I appear to the Republicans of my State that I am no longer a Republican, and it is done to affect, if possible, the election of United States Senator. I believe that every dollar adjusted from taxonivers in Illinois for sup-States Senator. I believe that every dollar collected from taxpayers in Illinois for support of the deaf and dumb, insane and blind and other wards of the State, should go for the benefit of those unfortunate people for, whom the taxes are collected, and the only sin I have been guilty of is to call attention to the fact that the present State administration has deliberately withheld funds amounting to many thousands of dollars and used it for carrying out the personal and political ambitions of the Governor.

Sees Bestruction of Party.

Sees Bestruction of Party.

"I have denounced this infamy in half of the counties of the State, not simply because the money so corruptly taken was used to defeat me for Senator, but I protested against it in the name of common honesty, and because I believed the course of the administration in thus robbing the State institutions will eventually destroy the Republican party in this State. I came home intending to support my party, as I have always done, and as I always expect to do, and the deliberate attempt of the State Committee to leave me out of the campaign is not because I have refused to support the ticket, not because I have continued to believe in sound money and protection, but simply because I have told the truth, the whole truth and nothing but the truth as to the robbery of the State institutions for the corrupt purpose of polluting the primary ballot box of the Republican party in Illinois.

"The present Governor of the State is not a candidate on any ticket, and I had expected, and had a right to expect, that I would be invited, as all Republicans are, to participate in the State campaign for our ficket, and for the re-election of our Congressmen, but simply because I have told the truth about Yates and have finally made them admit the collection of thousands of dollars which could have remained in the State Treasury, the committee has decided that loyalty to Yates and an absolute approval of robbery from the State Treasury is the test of Republicanism.

from the State Treasury is the test of Re-publicanism.
"I cannot stand that test, even though t prevents me from being invited to by the so-called Republican State Cortee. I am a Republican from principle no man, whether he be rattling arou the Governor's chair or rattling around in the chair of the State Committee, can make

Fighting for His Party.

anything else of me.

Fighting for His Party.

"I must, therefore, make the best fight I can for my party in the way the future may determine to be best. The chairman of the Committee on Speakers has intimated in his interview that I would assess people for my campaign fund and it is only due now for me to say that the patronage that has been in my hands consists of about 1.600 Postmasters in the Democratic districts which have been appointed under joint recommendation of Senator Cuilom and myself and I wish to state to the Republicans of Illinois that I have never directly or indirectly asked, demanded nor received one cent from those gentlemen appointed under my recommendation, nor have they been invited directly or indirectly to contribute to my campaign fund and, to make this statement as broad as possible, I have never asked, demanded nor received, nor has any committee in my interests, asked, demanded or received one cent, directly or indirectly or indirectly or in the most remote contingency for political purposes or any other purpose.

"I look forward hopefully to the time when Republicans—100 per cent Rapublicans (and not 5 per cent Republicans for revenue only)—may get control of the committee of the party when we may make an appeal to the electors of the State on the old-fashloned basis of Republicanism, when our speeches will be an appeal to reason for the maintenancy of sound currency and protective tariff, and not as it is in this campaign, where the only question asked of us is: "Will you help us to elect a ticket and promise in your speeches to aid the corrupt course of robbing the employes and robbing the linsane, deaf, dumb and blind in order to continue in power the present State administration?"

"Again, I say to the Republicans of Illinois, I am a candidate to succeed myself or the party when we may make an administration?"

"Again, I say to the Republicans of Illinois, I am a candidate to succeed myself

in order to continue in power the present State administration?

"Again, I say to the Republicans of Illinois, I am a candidate to succeed myself as a Republican, but when I find any man for set of men robbing the treasury of the State for political purposes, I will fight and work against them, regardless of what their party politics may be. Very respectfully.

The possibility of having to meet a demand to resign the leadership of the party is worrying the Yates leaders. Senator Mason has put a stop to the 5 per cent assessment matter. Wealthy Republicans will not contribute money to the campaign fund while it is controlled by Yates, and there appears to be no way of raising money to run the campaign.

The Republic Has Arranged With the Provident Save ings Life Assurance Society of New York to Furnish Life Insurance at a

GREATLY REDUCED COST.

How the Saving Is Made.

The Republic enables policy holders to save half of every premium under a new plan of life insurance, because its methods cut down the cost of getting and carrying policies. This is accomplished by dispensing with an expensive force of insurance solicitors, collectors, managers of offices, etc. The Republic's regular force of subscription canvassers and collectors attend to this work, thereby saving half the cost of administration. This saving is effected for the benefit of the policy holders. It is a large economy produced by the application of modern methods of organization and system. The policy holder gets the whole benefit due to the great reduction of the insurance premium.

Some Unusual Advantages.

The Provident Savings policy provides for payment of the full amount of insurance from the very beginning of the policy term. In the case of policies for small amounts, issued by other companies, there is only a partial payment in case of death during the first year of the policy. This policy calls for full payment at once, even we hat occurs the day after the policy is delivered. Cash surrender values are allowed under the policy after the first three years. Gen-

erally the holders of policies for small amounts can get a cash payment on surrender at a policy only at the end of fifteen or twenty years. The policy holder has to pay no fee for medical examination, his entire outlay being covered by the monthly premiums; and all the arrangements for effecting policies have been made as simple as it is possible to make them.

The King has thrown a bomb shell into the ranks of the nobility by stating his intention of dissolving the Grand Order of Annunciade, the oldest order in Spain and substituting for it the new Order of Alfonso the Thirteenth.

COAT OF LINEN CANVAS. This Garment Is Usually Worn When

pensive, it follows that with a good pattern and a sewing machine, one may be made in a very short time. These ilnen or cotton coats fall within twelve or fourteen inches of the bottom of a short walking skirt, and are worn with white ones by preference. They are simply stitched on the outside, and hemmed in the same simple way. A rolling coat-collar forms revers to the fronts part way. They fasten with large pearl buttons—four usually. Wide, loose sleeves with upturned cuffs, or long, very wide pagoda ones, are the choice. Such coats are not meant for town wear, but for country strolls or long walks. They are also much used after taking violent exercise, as rowing or field games, whether one walks or drives afterwards. They are not too warm, or too beavy, and have the not too warm, or too heavy, and have the advantage of being sent to the tub when solled, and for that reason they can con-veniently be given a good deal of knocking about. Every smart girl needs one.

Teacher: "And what is that part of the face called that extends from the bridge of the nose to the roots of the hair?"

Temmy: "L-er-why, it's er-l dunno."

Teacher: "Brow, isn't it?"

Tommy: "W'at if de roots o' yer hair is at de back o' yer neck, like my Uncle Bill's?"-Philade,phia Press.

DINNER SERVED IN COURTROOM.

Jim Cummings and Allan Palmer Among the Famous Members Present - Rain Interferes With the Programme.

Independence, Mo., Aug. 22.-The fifth annual reunion of the survivors of Quantrell's

guerrilla band was held at Independence to-The rain, which lasted till the middle of the forenoon, caused a complete change of plans on the part of the management. The meeting in Hocker's Grove was abandoned and instead a dinner was served in the

County Courtroom. There were no formal exercises befor noon, but the time was spent in the renewal of acquaintance and talking over old times. Many noted guerrillas were present, and the entertainment was largely made up of reminiscences. Jim Cummings, who claims never to have been reconstructed, is present. Alian Palmer, a noted guerrilla of

Texas, is also attending the reunion.

Talked About Lawrence Raid. Talked About Lawrence Raid.

The Guerrillas are younger men than one would expect to see forty years after the war. The average age is under 70. Most of them were boys when they joined Quantrell. There was much talk about the Lawrence raid which took place thirty-nine years ago, and most of the men present were in that raid. They followed the route to Lawrence and back and told of incidents of the trip both ways, but none of them said much about the time they were in Lawrence.

Lawrence.

There were a number of ex-Confederates present enjoying the greetings, but they were quiet and reserved. Each of the old Gurrillas wore a white badge on which was printed: "Fifth annual reunion of the survivors of the Quantrell Guerrillas, Independence, Mo., August 22, 1802."

Twenty-six men were present this mornpendence, Mo., August 22, 1902.

Twenty-six men were present this morning wearing these badges. Doctor L. C. Miller of Knob Noster, Mo., was one of the youngest men present. He is a practicing physician. J. Frank Greg., now a practicing lawyer at Grain Valley, was considered one of the most fearless men in the command and one of the most deadly revolver shots. He is a brother of Captain W. H. Gregg of Kansas City.

A. J. Liddil of Independence is probably the oldest among those present. He is 75 years of age and is still vigorous and serves now as Justice of the Peace for Blue Township.
